Professional Summary

Experienced Life Science Consultant and Mechanical Engineer with a strong background in project coordination, cleanroom commissioning, technical installations, and facility upgrades in regulated environments. Over 10 years of diverse assignments across pharmaceutical manufacturing, medtech, and hospital construction. Known for structured thinking, effective collaboration, and the ability to quickly adapt to new challenges and environments. Currently pursuing an Executive MBA, seeking to transition into an in-house technical or project-focused role with greater responsibility and long-term impact.

Thematic Project Experience

Cleanroom and Facility Projects

- Coordinated cleanroom commissioning, reclassification, and qualification at Galderma/Q-Med AB (2024–2025).
- Managed HVAC and heat recovery projects as part of the facility team.
- Led cleanroom equipment installations and ATEX-zone coordination (2023).

Project and Installation Coordination

- Managed planning and execution of process utility distribution lines (Octapharma, 2022).
- Oversaw medical equipment installation at New Karolinska Hospital (2014–2020).
- Supervised contractors and coordinated internal adaptations across multiple pharma clients.

Process and Utility Systems

- Conducted inventory and load analysis on pipe bridge infrastructure (Cytiva, 2024).
- Investigated ethanol supply and waste management systems (Galderma, 2024–2025).
- Planned utility expansion layouts for test facility upgrades (Cytiva, 2022).

Compliance and Support Activities

- Drafted and executed IQ/OQ and commissioning protocols (2021).
- Supported qualification activities and root cause analysis.

Education

Blekinge Institute of Technology 2024–ongoing
Industrial Economics and Management (Executive MBA equivalent)

Lund University (LTH) 2007–2013
M.Sc. Mechanical Engineering (Product Development)

FreeCodeCamp.org 2021–2022
Web Development and Python-based Data Science

Harvard CS50x (Online) 2020
Introduction to Computer Science

Stockholm & Uppsala Universities 2019–2020
Algorithms, Java, Scientific Computing

Certificates & Courses

Project & Leadership

- Project Management Programme – Chefakademin (2023)
- Leadership and Communication – Mindset AB (2025)

GMP and Compliance

- GMP Introduction/Basics – Octapharma (2022)
- GMP – Bjerking AB (2016)

Technical & Safety

- Static Electricity Safety – EXolutions (2023)
- BAS P/U – Novu Utbildning AB (2019)
- Piping in Industry – STF Ingenjörutbildning (2014)

Technical Skills

Tools

MS Office, MS Project, AutoCAD, Autodesk Inventor, LaTeX, Git, Python (basic)

Industry Knowledge

Cleanroom and HVAC systems, Equipment installation, GMP, P&ID drawing review, Utility systems
